PROFESSIONAL SUMMARY

Full Stack Developer with **3.5+ years** building scalable web applications with React.js, Next.js, Node.js, NestJS, TypeScript, MongoDB, PostgreSQL, Redis, Docker, and CI/CD. Delivered citizen-facing e-governance platforms serving 100,000+ users — REST APIs, secure workflows, officer dashboards, and payment modules. Strong focus on production delivery and Agile collaboration with cross-functional and government stakeholders.

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend: React.js, Next.js, Tailwind CSS, Zustand, TanStack Query

Backend: Node.js, NestJS, Express.js, REST APIs, Prisma ORM

Databases: MongoDB, PostgreSQL, Redis, Mongoose

Infra / Quality: Docker, CI/CD, Jest, Cypress, Git, GitHub, Postman

Practices: Responsive Design, Performance Optimization, OOP, MVC, Agile/Scrum

EXPERIENCE

Software Developer | Prodios Labs | Dehradun, Uttarakhand

Oct 2023 – Present

- Owned end-to-end full-stack features on the Uttarakhand Uniform Civil Code (UCC) platform — certificates, payments, rejection workflows, officer dashboards, and digital will registration (React.js, NestJS, MongoDB).
- Designed NestJS/Node.js REST APIs powering 100+ digital citizen services on Apuni Sarkar; used Redis for caching high-traffic reads where needed.
- Improved digital access for 100,000+ users with production workflows that reduced dependency on physical government office visits.
- Worked with Dockerized services and CI/CD pipelines; maintained automated tests with Jest and Cypress.
- Shipped public-facing sites for ITDA and PM Gati Shakti Uttarakhand using React.js, Next.js, and TypeScript.

Associate Software Developer | Prodios Labs | Dehradun, Uttarakhand

Oct 2022 – Sep 2023

- Built frontend and backend features for e-District and PM Gati Shakti with React.js, Node.js, MongoDB, and SQL/PostgreSQL where relational data fit better.
- Designed and launched the official ITDA website with a responsive, performance-focused React UI.
- Delivered full-stack modules with REST API consumption, reusable React components, and maintainable Node.js services.

EDUCATION

Masai School — Full Stack Web Development (MERN), Bengaluru

Oct 2021 – May 2022

Intensive program covering React, Next.js, NestJS, Node.js, TypeScript, Prisma, MongoDB, PostgreSQL, Tailwind CSS, and REST APIs.

Maharaja Surajmal Brij University — Bachelor of Arts, Bharatpur, Rajasthan

Jul 2020 – Apr 2023

Bachelor of Arts (Humanities); graduated with 79%.

CERTIFICATIONS

- Full Stack Web Development Certification — Masai School, Bengaluru | 2022
- REST API (Intermediate), React (Basic), JavaScript (Basic) — HackerRank | 2022
